COMMERCIAL NEWS

Interest during the week past has centered so strongly in the meeting of the Sugar Planters and the extra session of the Senate, that the local markets have shown the effects of so much outside attraction. The business has been good, on the basis of the fall doings, and the prices have been fairly well maintained.

The unanimous verdict of the plantation men in the city was that conditions as affecting the estates were never better now except as to labor, and the outlook is for better times. Especially is this true in the ranks of the managers, who discussed with the Trustees the matter of labor during the session of the association. They report that they regard the outlook as most pleasing, and they expect Congressional action very soon.

These reports made by men who have the hard work to do, have had the effect of giving the men in the city who deal in shares a greater feeling of confidence and a substantially rising market is their confident prediction.

There were few changes during the week. Ewa felt the impress of realizations. Many of the speculators who bought below \$20 and thought it a good time to scalp out did so, and as well there was a fair offering of shares by other small holders. This had the effect of breaking the price to \$23.25 at which fifty-five shares changed hands. Oahu more than offset this little shrinkage, when on a sale of twenty-two shares, the price went up to \$90, the last previous recorded sale being at \$82.50, although the shares have been appreciating in value, and the holders have asked above the selling price of Tuesday.

In the amount of sales Oiaa assessable held the record 175 being sold at the ruling figure, \$10, at which price there seems to be a market for all the offerings. Oookala was strong at \$9, there being sixty-five shares put on the market which were taken without delay, and which showed the very best feeling toward the stock. The reports from the plantation have been very pleasing to the managers. Waiialua showed the effects of the advance which has been noted during the past few weeks, and although the last recorded sale previous to this week was at \$52.50 there were ten shares sold at \$65.

The market for miscellaneous shares is in fine shape. A block of five Rapid Transit stock went off well at the usual rate \$60, and thirty-two Inter-Island brought \$95, a good price, owing to the steady advance in the business and the consistent dividend paying. The only bond transaction of the week was the transfer of \$1,000 of Waiialua bonds which brought the standing price \$100.25.

Reports from San Francisco by the last mail indicated that there had been something in the way of softening of the rates there, but it was not felt that there could be any material changes. Honokaa and Hawaiian Commercial felt the drop, fractionally in each case. The next mail is looked to to report even better rates.

The affairs of the First American Savings & Trust Co. will be settled at meetings to be held January 6th, by both elements in the situation.

REAL ESTATE.

The sales of small lots continue to engage the attention of the brokers and there has been nothing reported which means any change in the prices or which indicates any material movement downtown. The principal building continues to be the construction of tenements and store structures in the Chinatown end of the city, though work on the under-way structures of the business sections continues to advance rapidly.

The foreclosure suit of the German Savings against the Progress block and the appointment of W. G. Cooper as receiver of the building, indicates only the desire of the lenders to realize, it is said, as the property will certainly realize more than the amount named in the suit, \$55,000.

It is understood that there is no immediate prospect of the issuance of bonds by the Young Building Company, but in the event that this shall be deemed wise by the president of the corporation, there has been made arrangements for the placing of any amount which may be put out.

BERRY'S REPORT.

The semi-monthly report of Berry's Commercial Agency bears the date of November 17th, and deals with the situation as follows:

At the regular annual meeting of the Hawaiian Sugar Planters' Association held today, a statement of the Island crop for 1901 and 1902 was presented by the secretary, William O. Smith, showing the total yield to be 355,611 tons. Of this amount Hawaii produced 121,295; Oahu, 107,870; Kauai, 69,720; and Maui, 56,726 tons. Several of the larger estates will increase their tonnage next year. These include Hawaiian Commercial and Sugar Company, Hawaiian Agricultural, Pioneer Mill, Waiialua, Oahu, Honolulu Sugar and McBryde. All conditions now point most favorably for one of the largest crops next year ever produced in Hawaii.

The great bulk of the taxes has been paid in and the bankers are now to be found in the best of spirits. Assessor Pratt reports some delinquencies but this was expected to be the case. The tightness in the money market which has prevailed in Honolulu for so long a period, is bound to change for the better at once. Some of the money paid into the Government will come back to the banks in payments of loans or advancements made to the Government. Immediate prosecution of Government improvements will put considerable money into circulation.

Sugar shares are looking up some since our last report. Oiaa assessable at 10 and Oiaa paid up at 12 has perhaps been the most active. Oiaa advanced from 7 1/2 to 15 in a remarkably short space of time; afterwards receding to 12, the present quotation. Oiaa Railway sold at \$5 and Kahuku at \$2. A street sale of Ewa was made at 24, although this stock was offered at 23 1/2 at today's session of the Exchange. Oahu is \$5 bid and Oookala sold at 9 and Waiialua is 57.50 bid. McBryde is 4 bid and 5 asked. Honoum, Waiialua, Hawaiian Agricultural and Olowalu remain at the old figures.

Among the stocks to advance in the San Francisco Market are Hawaiian Commercial and Pauahau. Sales of the former trade place at 40.25. Pauahau has advanced to 15 and has a strong upward tendency.

Building operations in the Chinatown district are still active. Much building is of stone structure and is about complete. There is much talk of the erection of a Pythian building on the triangular lot on Union street that belongs to Mystic Lodge.

The mortgage indebtedness has increased since our last report, \$1,233,569.66.

The following instruments have been filed during the past fortnight:

71 Deeds \$ 49,166.00
25 Mortgages 1,290,726.30
8 Chattel Mortgages 11,195.36
21 Releases 18,352.00

The pen recently ordered came to hand in good condition.

The only objection I have found to it is the temptation to waste a great deal of time showing other people how simple a matter it is to fill the holder, and how beautifully and cleanly it works.

Very truly yours,
